Twilight outline

2 hour practical training session

Helping your staff take the first steps towards curriculum outdoor learning

During this practical session, your staff will explore:

- The research behind outdoor learning and the impact it can have on wellbeing, inclusion, engagement, behaviour and learning outcomes
- Practical outdoor maths activities that can be adapted across the primary age range
- Creative English activities that bring learning to life outdoors
- Meaningful PSHE activities that encourage collaboration, communication and wellbeing
- How to use risk-benefit assessments to safely facilitate outdoor learning
- Simple, low-preparation approaches that staff can implement immediately in their own classes
